

Look beyond the bottle.

The long-term value of generics begins with
the investment Sandoz is making today.

SANDOZ

A healthy decision

Legal Disclaimer

The product information in this document is provided by Sandoz Inc. ("Sandoz"), Princeton, NJ, and is intended for general information purposes only. Many pharmaceuticals and medical device products listed are available upon prescription from a medical doctor or qualified medical professional only, and not all such products may be available in all countries. The product information is not intended to provide complete medical information. Patients should always obtain complete medical information about their prescription medicines or medical devices (beneficial medical uses and possible adverse effects) from the product's information leaflet and by discussing the appropriate use of any medicine(s) or medical devices directly with their prescribing physician or, where appropriate, other medical advisor. Information on these products may vary by country. Patients, physicians and other medical professionals should check with local medical resources and regulatory authorities for information appropriate to their country. In addition, current regulations in many countries limit (or even prohibit in some instances) Sandoz's ability to provide information and/or to respond directly to patient questions regarding its prescription products. Sandoz, however, will respond to inquiries from and provide information to the patient's qualified health care professional in accordance with local regulations. Reader understands and agrees to the foregoing.

Legal Disclaimer

The product information in this document is provided by Sandoz Inc. ("Sandoz"), Princeton, NJ, and is intended for general information purposes only. Many pharmaceuticals and medical device products listed are available upon prescription from a medical doctor or qualified medical professional only, and not all such products may be available in all countries. The product information is not intended to provide complete medical information. Patients should always obtain complete medical information about their prescription medicines or medical devices (beneficial medical uses and possible adverse effects) from the product's information leaflet and by discussing the appropriate use of any medicine(s) or medical devices directly with their prescribing physician or, where appropriate, other medical advisor. Information on these products may vary by country. Patients, physicians and other medical professionals should check with local medical resources and regulatory authorities for information appropriate to their country. In addition, current regulations in many countries limit (or even prohibit in some instances) Sandoz's ability to provide information and/or to respond directly to patient questions regarding its prescription products. Sandoz, however, will respond to inquiries from and provide information to the patient's qualified health care professional in accordance with local regulations. Reader understands and agrees to the foregoing.
